Composite stabilizing grids

160 ton load-bearing capacity

Specification dated

Equipment	160 ton
External dimensions	30,2/ 30,2 cm
Thickness	3,5 cm
Weight	0,56 kg
Colour	black

Information

- Made of LDPE (low-density polyethylene)
- Light
- High load-bearing capacity 160-ton slab
- Easy to lay
- Reusable
- Provides ideal surface protection
- Capable of carrying heavy loads
- Reducing point pressure
- No absorption of liquids or chemicals
- Easy to clean
- Rough surface that prevents falls and slips
